Fellow Ohioans,

In 2016, a group of us came together to form the Ohio Mayors Alliance, a bipartisan coalition of mayors of Ohio’s largest cities. Since that time, we’ve worked together to advocate for our cities, build better partnerships with state leaders, and foster idea-sharing and collaboration among the mayors.

This year has been one of continued growth for the Ohio Mayors Alliance. We’ve worked to advocate for a significant increase in resources for our transportation infrastructure. We also successfully advocated for the first increase in local government funding in over a decade.

In addition to our legislative advocacy work, we’ve also forged several important partnerships with other non-profits and philanthropic organizations. Through these efforts, we developed a grant program to help our cities champion educational attainment goals, helped to support small business leadership in our communities, and taken action to promote healthy communities across Ohio.

Our membership has also grown this year. In March, we welcomed a new coalition member, Mayor Steve Patterson of Athens, chair of the Mayors’ Partnership for Progress, which represents more than 60 communities in Southeast Ohio. By bringing the perspective of this coalition into our group, we are able to better advocate for the challenges and opportunities in all of Ohio’s communities.

As we take a look back at all we have accomplished this year on our key priorities, we are excited to tackle new challenges next year and continue to leverage our local leadership to make a statewide impact.

Sincerely,

OHIO MAYORS ALLIANCE BOARD OF DIRECTORS:

Mayor John Cranley
City of Cincinnati

Mayor Tim J. DeGeeter
City of Parma

Mayor Andrew J. Ginther
City of Columbus

Mayor Lawrence Mulligan, Jr.
City of Middletown

Mayor Don Patterson
City of Kettering

Mayor David Scheffler
City of Lancaster

Mayor Nan Whaley
City of Dayton
POLICY PRIORITIES

INVESTING IN OUR CITIES AND GROWING OUR ECONOMY
With more than 90 percent of the state’s GDP generated in the largest metropolitan regions, cities are the engines of economic growth. The Ohio Mayors Alliance will continue to communicate the important role that cities play in driving the state’s economy, as well as advocate for improved revenue sharing that supports business development and job growth in Ohio’s cities.

CONFRONTING OHIO’S OPIOID EPIDEMIC
As a coalition of local leaders on the front lines of Ohio’s ongoing opioid epidemic, the Ohio Mayors Alliance continues to share best practices for responding to the opioid crisis, as well as to engage state and federal leaders for the purposes of establishing a more coordinated and comprehensive approach to confronting this crisis.

STRENGTHENING OHIO’S INFRASTRUCTURE
The Ohio Mayors Alliance believes that strong, municipal infrastructure is critical to economic opportunities in Ohio and its metropolitan regions. As leaders in Ohio’s largest cities, we will continue to advocate at both the state and federal level for necessary resources and funding to make sure our municipal infrastructure is maintained and improved.

PROTECTING HOME RULE
Home rule authority for local communities is a protected right in the Ohio Constitution, and the Ohio Mayors Alliance will actively oppose any state legislation that undermines our communities’ ability to govern themselves and erodes Ohio’s constitutional right to home rule.
IMPROVING EDUCATIONAL OPPORTUNITIES
Education is critically important to fostering the talent and workforce that is needed to grow Ohio’s economy. We have convened education stakeholders to help our cities support Ohio’s educational opportunities and make targeted investments in our schools to ensure our communities are strong today and tomorrow.

STRENGTHENING OUR DEMOCRACY
To ensure our democracy is responsive and that our representatives understand the challenges and opportunities in Ohio’s cities, the Ohio Mayors Alliance continues to advocate for representational fairness, a complete and accurate count in the 2020 Census, and an open and transparent democracy.

COMMUNITY SAFETY
As elected leaders of our communities, we work everyday to ensure our residents and law enforcement are safe and protected. We will work with the state legislature to communicate the issues we see everyday and advocate for legislative changes that would better protect our communities and residents, including gun violence prevention and criminal justice reform.

Local leadership. Statewide impact.
*Chair of Mayors’ Partnership for Progress, representing mayors and city managers from Athens, Gallia, Hocking, Jackson, Lawrence, Meigs, Monroe, Morgan, Noble, Perry, Pike, Ross, Scioto, Vinton, and Washington counties.
The Ohio Mayors Alliance was formed in 2016 to advocate for our communities and our constituents by speaking with one voice about the challenges and opportunities of Ohio’s cities.

The Ohio Mayors Alliance is structured to ensure that there is bipartisanship and consensus among cities. The board members must represent both political parties, as well as both large and small member cities. Adoption of any official policy position by the Ohio Mayors Alliance must be approved by a supermajority, or two-thirds, of total membership.
The Ohio Mayors Alliance is a bipartisan coalition of mayors of Ohio’s largest cities. By coming together and speaking with one voice about the challenges and opportunities in Ohio’s cities, we can more effectively advocate for our communities and our constituents.

MISSION STATEMENT

Our mission is to strengthen Ohio’s cities and metropolitan regions through collaboration, communication, improved advocacy, and stronger partnerships with policymakers.

As we come together, we will advance policy priorities that bring communities and leaders together, ensure a high quality of life for our citizens, and strengthen the economic vibrancy of our communities and our state.

PROGRAMS & PARTNERSHIPS
OHIO’S OPIOID CRISIS

OHIO OPIOID EDUCATION ALLIANCE
The Ohio Mayors Alliance is a proud member of the Ohio Opioid Education Alliance (OOEA), partnering with dozens of other organizations including government, business, and nonprofits, to spread the “Don’t Live In Denial, Ohio” message. Under the leadership of the Nationwide Foundation, our mayors are helping to prevent the next generation from abusing opioids. The campaign encourages parents and caregivers to discuss the dangers of prescription painkillers with their children and dispose of unused opioids and painkillers in their homes.

Our mayors are hosting community meetings in their cities to discuss the campaign with stakeholders, including first responders, foundations, and local nonprofits. The OOEA is working to expand from a central Ohio focused campaign to a statewide campaign.

ECONOMIC DEVELOPMENT

10,000 SMALL BUSINESSES
This year, we partnered with Goldman Sachs to expand their 10,000 Small Businesses program in Ohio. 10,000 Small Businesses is a public, private partnership that provides local business leaders with business and management education, access to capital, and business support services.

The program currently offers courses in Cincinnati, Columbus, and Cleveland. Our mayors have been working with the program to identify area small businesses that would benefit and grow from this program, unlocking economic growth and job creation in our communities.

ONE VOICE TO ENCOURAGE CHANGE

A healthy, effective local transportation system can drive economic growth and attract new businesses to the state. However, when the arteries of our economy are in disrepair, the health of our state suffers. This is why the Ohio Mayors Alliance came together to advocate for the passage of the state transportation budget, which included a significant increase in funding for Ohio’s roads and bridges.
BUILDING OHIO’S INFRASTRUCTURE

FIX OUR ROADS OHIO AND THE TRANSPORTATION BUDGET

In 2018, the Ohio Mayors Alliance joined a small group of advocates to begin discussing ways to increase Ohio's investments into our transportation system. This group became known as Fix Our Roads Ohio, which grew into a broad coalition of business groups, unions, and local governments.

This coalition led the efforts to work with then newly-elected Ohio Gov. Mike DeWine to make the case for a long-overdue increase in Ohio’s motor fuel user fee. With the Governor’s leadership and many months of advocacy, the legislature approved a substantial increase, driving much-needed transportation dollars back to Ohio’s local governments in 2019.

OHIO EPA AND U.S. EPA INTEGRATED PLANNING WORKSHOP

The passage of The Water Infrastructure Improvement Act in Congress gave our cities a new set of tools to meet water infrastructure standards set in the Clean Water Act. Integrated planning, outlined in the bill, allows for more flexibility to update water infrastructure and protect drinking water in a more effective and affordable manner in our cities.

While Integrated Planning is an extremely valuable tool for our cities, many of Ohio’s cities were not utilizing it to its fullest. Under the leadership of Lima Mayor David Berger, Chair of the U.S. Conference of Mayors Water Council, we worked with the Ohio Environmental Protection Agency and representatives from the U.S. Environmental Protection Agency to convene a large, full-day workshop with local officials from across the state to discuss the challenges our cities are facing in complying with the Clean Water Act. The workshop also provided a guide for how to utilize Integrated Planning for the betterment of their city’s water infrastructure.
MAYORS EDUCATION ADVOCACY AWARDS

Our mayors know that the future of their economic and workforce development starts in the classroom. Seven of our cities proposed unique campaigns to help promote educational success. By taking local action in their cities and bringing together community partners, our mayors are making a commitment to ensuring their communities reach the state’s educational attainment goal.
EDUCATIONAL ATTAINMENT AND WORKFORCE DEVELOPMENT

OHIO MAYORS EDUCATION ADVOCACY GRANTS

Our metro economies rely on an educated and trained workforce. In partnership with Learn to Earn Dayton, and with funding support from the Bill & Melinda Gates Foundation and the AT&T Foundation, we were able to provide seven of our cities with small grants to boost educational attainment in their cities.

The grantee cities are committing to promote post-secondary education in a number of ways, including FAFSA completion, assisting stopped-out students to stay in college, and offering mentorship to high school seniors. Our cities are committed to ensuring their students are prepared, their workforce is trained, and the state’s economy is strong for future generations.
2020 CENSUS

The 2020 Census will have important impacts on our cities for the next decade, including community development dollars, funding for infrastructure, and political representation. In 2019, we laid the groundwork for a complete and accurate count of the state in 2020.

LOCAL COMPLETE COUNT COMMITTEES

Our mayors have been working with the U.S. Census Bureau to create local complete count committees in their cities to bring together stakeholders that touch every aspect of their community, including faith, education, business, neighborhood leaders, government and nonprofits. By bringing these groups together, they can create a plan for reaching their residents to ensure they are prepared to take the Census. Local leaders play an important role in communicating the importance of the Census, as residents tend to have higher trust in their local elected officials than in the state and federal government.

Mayor John Cranley, City of Cincinnati, speaking at the kickoff of the Greater Cincinnati Counts Committee
**OHIO COMPLETE COUNT COMMISSION**

On the state level, Governor Mike DeWine convened a Complete Count Commission of representatives from across the state that represent businesses, universities, faith communities, governments, minority organizations, media, and many more, to ensure the state is fully counted in 2020.

The commission is chaired by Ohio Development Services Director and former Mayor of Findlay, Lydia Mihalik. Youngstown Mayor Jamael Tito Brown is a commissioner, bringing the important local perspective from our cities to the discussion.

Our mayors are working to support the efforts of the statewide commission and helping to ensure a complete and accurate count of our cities and the state of Ohio.

**OHIO CENSUS ADVOCACY COALITION**

The Ohio Mayors Alliance is a member of the Ohio Census Advocacy Coalition, a network of statewide nonprofits and advocacy organizations working to encourage full participation in the 2020 Census, with a particular focus on Ohio’s hard-to-count populations.

Many of Ohio’s hard-to-count populations live in Ohio’s cities, meaning our cities face unique challenges to getting a full count. By working in collaboration with these partners, we are advocating for the challenges and opportunities of these populations and learning unique outreach tactics for communicating with our residents.
On November 9, 2019, members of the Ohio Mayors Alliance were recognized at the half-time show of The Ohio State Buckeyes football game. In collaboration with the OSU College of Nursing and the National Forum for Heart Disease and Stroke Prevention, Ohio mayors competed in the Step It Up challenge to promote community health in their cities.
COMMUNITY HEALTH

MOVE WITH THE MAYOR / STEP IT UP! CHALLENGE

Just as a trained workforce is important to a city’s economy, so is a healthy one. That is why we organized our mayors this year to compete in the Move with the Mayor/Step It Up! Challenge created by the National Forum for Heart Disease and Stroke Prevention. By promoting heart health and walkable cities, our mayors are engaging with their communities and emphasizing the importance of living an active life.

Top left: Mayor Ike Stage, City of Grove City, and residents participate in #MoveWithTheMayor. Top right: (Left to right) Mayor Ginther, Mayor Muryn, John Clymer, Executive Director of National Forum, Bern Melnyk, Dean of OSU College of Nursing, Mayor Walters, Mayor Stone, Keary McCarthy, Executive Director of the Ohio Mayors Alliance. Bottom left: Mayor Dan Horrigan, City of Akron, participated in the #MoveWithTheMayor/Step It Up! challenge this fall, hosting walks with residents throughout the city. Bottom right: Mayor Christina Muryn, City of Findlay, uses a game of four-square to challenge kids in her community to #MoveWithTheMayor.

PROTECTING HOME RULE

Throughout this legislative year, we continued the conversation of protecting home rule through the transportation budget, the biennial budget, and individual pieces of legislation. Our cities are able to thrive when our mayors are able to keep their communities safe and enact innovative solutions to the individual, unique challenges they face.

DeWine Hopes To Avoid Erosion Of Local Control In Budget
GUN VIOLENCE PREVENTION

The persistent threat of gun violence in our cities has long been a serious public safety concern for many of our mayors. While we had not yet taken on this issue as a coalition, many of our mayors have taken local action to curb gun violence. These efforts include innovative efforts to use technology to detect gun shots and finding ways to leverage the buying power of law enforcement agencies to penalize irresponsible gun manufacturers and to promote smart gun technology.

However, on August 4, 2019, tragedy struck Dayton when a gunman opened fire in the Oregon District killing 9 people in 32 seconds and wounding dozens more. From that moment forward, our mayors have come together to communicate the urgent need for change. We have been working with our allies to push for passage of common-sense gun violence prevention measures at the state and federal levels.
Our mayors are leaders within their own cities, and they are also leaders on the state and national stage. Many of our mayors are involved in the U.S. Conference of Mayors, putting them on the forefront of innovative local leadership.

Ohio mayors serve in U.S. Conference of Mayors leadership, including Dayton Mayor Nan Whaley, who serves as Second Vice President, and Columbus Mayor Andrew Ginther, who serves on the Advisory Board. Many more of our mayors serve as chairs and vice chairs of committees within the national organization.

This year, Cincinnati Mayor John Cranley and Toledo Mayor Wade Kapszukiewicz hosted a large national meeting in Toledo to discuss how mayors can lead on gun violence prevention, including using public-sector purchasing power to push for responsible gun policies.

Just as the Ohio Mayors Alliance facilitates collaboration and networking among our mayors, the U.S. Conference of Mayors does the same with mayors from every corner of the country, as mayors continue to be the leaders on innovative and practical governance.
